## HANGING BAG INSTRUCTIONS

Please read these instructions before using your Space Bag.

For a demonstration video, tip & suggestions - please go to: [youtube: http://goo.gl/eFkncJ](http://youtube://goo.gl/eFkncJ)

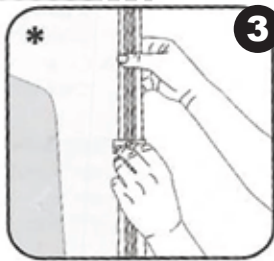

It is recommended to first hang the bag using the external hook. It can also be placed on a flat surface.

Place coats, shirts, trousers and dresses onto separate hangers and hang on internal hook. Items should be completely dry before packing.

\*See over page for further precautions

**Ensure the zipper is as flat as possible.**

*Firmly press the slider together between thumb and forefinger.*

*Slowly slide across zipper from one end of bag, beginning and ending at the bubble stop.*

*Repeat this step in the opposite direction at least two times to seal the bag.*

Place the vacuum hose over the valve to vacuum out the air.

Store compressed bag in your closet.

*NOTE: If bag reinflates, repeat steps 1 through to 4.*

If the slider comes off, it can be easily reinserted into the zipper.

# PACKING RECOMMENDATIONS & TIPS

For additional information on other space saving solutions: [www.spacebag.com.au](http://www.spacebag.com.au)

- (A) The number of garments stored will depend on the type of hanger used.
- (B) The bag can be folded after step 4 and stored flat if not hanging in a closet.
- (C)
  - Do not hold or carry the bag by the zipper
  - To re-open, pull gently apart from centre of zipper
- (D) This is a cap-free valve that does not allow air back in.

## PRECAUTIONS

1. Keep out of the reach of children 
2. Do not puncture bag
  - \*Articles with metal/sharp edges could result in pin holes*
3. Do not use to store food, leather or items made of animal fur
4. Down filled items should only be reduced to 50% as further compression can damage down feathers
5. **Items should be completely dry before packing**
6. **Thoroughly air items that have been dry cleaned before packing**
7. Do not store bag near sharp objects, heat sources such as on top shelves of closets near light bulbs or in temperatures above 55°C or below -18°C
